Category B – Indirect Exploitation of Exploration results in other sectors

*Workshop on “Commercialisation and Utilisation of Space Exploration Technologies”
Turin, 15-16 March 2018*

Category B – Indirect Exploitation of Exploration results in other sectors

IoT environment has a growing need for new devices, sensors and communication systems.

Space technology can strongly contribute to distributed intelligence:

some example of NASA startups.

Electronics is ready but...

... How to power it?

PRINTED PHOTOVOLTAIC

Flexible

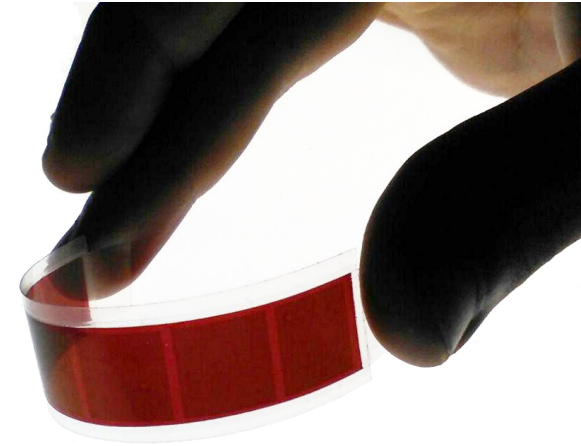

Light and robust

Customizable

Colors and shapes

Plastic

Fully recyclable

THE BEST SOLUTION FOR ENERGY HARVESTING
